

# Unihack

Timișoara, 20–22 November 2020

## An international hackathon for university and high school students.

The second edition of UniHack will take place in **Timișoara, Romania**, between **20–22 November 2020**.

Grouped in **teams of up to 5 people**, the participants have **48 hours** to develop **software or hardware** projects. Depending on the idea and the used technology, projects can be registered in one or more tracks. Other than the prizes offered by track sponsors, the **grand prize** is also up for grabs (items worth up to 2000 EUR)!

At UniHack, participants are encouraged to identify **civic problems** and come up with technical solutions for them. Support from **experienced mentors** will be available during the event.

Over **200 participants** from all over Europe are expected to join us, whether they are newbies or coding experts.

**48h**  
of coding

**200+**  
international participants

**Tech & Civic**  
tracks

Timișoara, 20–22 November 2020

## Timeline

- **Opening**

Meet our partners and learn more about the sponsor tracks and prizes.

- **Discussion Panel**

How do educational and public institutions handle digitalization? What can we do to have greener, smarter cities? Local and international speakers will answer these questions, discuss other challenges and possible technical solutions for them. Pay attention, you might just get that groundbreaking idea!

- **Hackathon**

Start coding! If you get stuck or you just need some guidance, ask for support from mentors – they can help you validate your project idea or fix that bug you've been struggling with for the past hour.

- **Judging**

Present your work. Judges will assess both your technical work and the feasibility of your idea. The best teams become grand prize finalists and pitch their project on stage. The judges' score will be combined with the public's votes to determine the winner. Have a working demo ready and convince everyone that your project is the best.

- **Closing**

Drumroll please... We have a winner! Well, multiple winners actually. Let's find out who gets a track prize and who goes home with the grand prize – the best digital solution for a civic challenge!

- **Keep on hacking...**

Don't stop just because the hackathon ended! Our partners will offer support so that you can continue working on your idea and make a real impact.
